However, it may be noted that the total export credit outstanding at the end of March 1992 was Rs. 10,695 crores which constituted 8.6% of the total net bank credit. At the end of March 1995, the total export credit outstanding is provisionally estimated at Rs. 27,301 crores forming 13% of the total net bank credit, which is much above the target of 10% fixed by the RBI. During the current financial year, there has been an increase of Rs. 5,000 crores in the outstanding export credit.

The Government is constantly interacting with the RBI to ensure adequate availability of credit to the exporters both in foreign currency and in rupees at internationally competitive rates. As a result of this interaction, certain changes have been announced by RBI recently.
